Select one or more of the listed categories that match with the intern position:

☐ Product Design — Graphic Design — Prototyping

**Location of the internship**

Eindhoven, The Netherlands

**Internship period**

February – June 2017

**Application deadline**

20 January 2017

---

**Details**

**Description of the internship**

An industrial design internship for a period of 6 months. As an intern you will work on commissioned and internal projects in the areas of product design, graphic design and prototyping.

You will experience the environment of a small industrial design studio, with plenty of possibilities to develop your creative, technology and business skills.

**Student’s responsibilities**

Besides your role in commissioned and internal projects you will have your own personal project.

**The company is offering**

An opportunity to put your skills and ambition to the test in a professional environment. A monthly fee based on your capabilities. Free lunch.

Experience or a great interest in 3D printing.

Experience in using a CAD 3D modelling program such as Solidworks or Fusion 360.

Pro-active attitude.

‘two right hands’.
